

A Y A A D MUHAMMAD

FRONT END WEB DEVELOPER

As a Front-End Web Developer, I bring a creative and technical mindset to the world of web design and development. My mission is to create visually stunning and user-friendly websites that captivate visitors, enhance user experiences, and drive results. With a deep appreciation for both design aesthetics and coding intricacies, I bridge the gap between art and technology to make the web a more captivating and interactive space.

3 YEARS OF EXPERIENCE

FRONT END DEVELOPMENT

- **Front-End Mastery:** Proficient in HTML, CSS, and JavaScript, I craft pixel-perfect and responsive web designs. My work reflects the latest design trends and best practices for optimal cross-browser compatibility and mobile responsiveness.

UI/UX EXCELLENCE

- I specialize in creating intuitive user interfaces and delightful user experiences. My designs prioritize usability, accessibility, and engaging interactions to keep users coming back.
- **Responsive Design:** My commitment to responsive design ensures that websites I create look and function flawlessly on various devices, from large desktop screens to mobile phones.

VERSION CONTROL

- Proficient in using Git and GitHub, I maintain organized and efficient version control for collaborative projects.

PROJECTS WORK WITH

- Personal Website or Portfolio
- Responsive Website Design
- Content Management Systems (CMS)
- Web Applications
- Interactive Features
- Single Page Applications (SPAs)

In the ever-evolving world of web development, I stay at the forefront of industry trends, always eager to learn new technologies and best practices.
